## EXPERIENCE

### Front End Engineer

@ Jobrapido

Milano, IT — December 2014 to Present

Actually working in the Big Data team, developing a tracking library and helping moving the architecture onto Google Cloud Platform

In the past i've worked with everything related with the front end of the website: Angular app, Handlebars views for Struts, SASS project

Introduced usage of Node.js to develop microservices for page components

### Front End Developer

@ VML

Milano, IT — February 2012 to December 2014

Create static version of front end templates for big brands clients in a creative agency using all the best technologies: Javascript (jQuery, Underscore), CSS (LESS), HTML and Handlebars templating, Slim PHP for REST APIs. Also a little bit of Wordpress

### Web Developer

@ Damsol

Lodi, IT — November 2009 to January 2012

Create websites for little brands. Completely custom CMS made in PHP and MySQL, custom layout with HTML, CSS and jQuery

## EDUCATION

### Corso di Laurea in Sicurezza dei Sistemi e delle Reti Informatiche

Università degli Studi @ Milano, IT — 2013 to Present

### Corso di Linguaggi di Programmazione per il Web (PHP, Java)

Galvano Informatica @ Milano, IT — 2009

### Diploma di Maturità Classica

Liceo Classico Pietro Verri @ Lodi, IT — 1995 to 2001

### Soft Skills

Good approach to the project management, good autonomy in making decisions

Experience with Agile development: Scrum and Kanban

Good listener with a proactive attitude

Good approach and positive attitude towards new technologies

## EXTRAS

Passionate traveller, i prefer remote places especially northern countries. I've been everywhere in Europe, sometimes jumping on the first available transportation without particular schedule. I'm crazy about maps, i've the planisphere tattooed on my forearm.

Musician and music lover. I play guitar and i've played piano for years. I listen to a lot of music (last year Spotify told me that i've listened to almost 600 different artists)

Proud to be an ex-smoker, without any program. It takes guts to quit a bad habit and i'm proud enough to add it as a point of honor in my resume!

If you like to know on what i'm focused at the moment, you can watch here (<http://www.andreavaghi.com/now.html>)
